

Why settle for a flat, one-dimensional book when you can have a full hands-on experience? **Interactive Book-Webscene (IBW)** takes the tangibility of a print book and combines it with the fun, excitement, and interactivity of the computer for a unique mix. Reading a plain book is good, but having the option of incorporating different games and learning tools is awesome—your kids will love it.

This is the most fun you could ever ask for from a book. **IBW** is sure to be the wave of the future.

Meet **Interactive Book-Webscene (IBW)**, a new kind of reading experience... a wonderful way to keep the child(ren) in your life interested in reading... while secretly hiding their educational value in a whole bunch of fun!

### [Thanks, Mail Carrier](#)

[My son] barely ever focuses on stories, but spent at least 30 minutes at one sitting reading these three [**IBW**] stories. I was very impressed!!!

### [The Princess and The Monkey](#)

With kids becoming more and more web-savvy with each passing day, this is a great way to get kids reading in a way that's at once traditional and digital. Thus **IBW** books combine the best of both worlds. They also have extensive educational value – teaching and supporting school readiness, reading readiness, and beginning reading.

"I can't tell you how much I love [IBW books]... I will take this over ANY cartoon any day."

[Frugal Mom Knows Best](#)

[IBW's] colorful animations (complete with fun sound effects and adorable, hand-drawn images) made for a much more interactive experience than simply looking at a still illustration in a book.

**Interactive Book Webscene (IBW)** takes learning and twists it into a fun, interactive lesson that kids will love.

### [Maria's Space](#)

As a home school mom... I want my girls to fall in love with learning. Not just what a text book has to say on a particular subject. I want them to fall in love with discovery.

**IBW Books** has a wonderful interactive method of allowing children to discover the joy, creativity and adventure in learning and reading. While every method is not right for every child... it is wonderful to find an interactive site that allows children the freedom of adventure and the joy of reading.

### [The IE Mommy](#)

Children need to use their imagination and **Interactive-Book Webscene (IBW)** allows your child to do just that!... very fun for the kids and us as parents also... so great for children especially to help with reading, and great fun for the summer months. Kids will not be bored reading anymore with **IBW!**

### [Kiddies Corner Deals](#)

At the end of each section of the print books is a link to a webpage that may be an animation, music, video, or game that corresponds to what your child has just read. Very cool for today's web-savvy kids!

### [Mom Reviews](#)

A creative way to engage your child and ignite their imagination and love for reading...webscenes are very colorful and contain lots of movement to grab your child's attention... Really cool!
